Allowable Subject Matter

Claims 1 – 20 and 24 – 25 are allowed. The following is an examiner's statement of reasons for allowance: As stated in the previous office action, prior art fails to teach, either alone or in combination, the apparatus as claimed by Applicant, wherein the apparatus is used for the fabrication of writing instruments having a plastic casing which poses different structural limitations not present in industrial applications and thus, the apparatus of the prior art reference of Johnston (U.S. 2,696,858), being useable in industrial applications, is not capable of performing in the same environment of Applicant's apparatus. The apparatus of Johnston is large and is for use in an industrial setting. Furthermore, Johnston teaches an apparatus for the fabrication of rattan furniture with interior and exterior mold assemblies; however, the mold assemblies, respectively, are moved via an hydraulic ram, such ram being operated by a motor, allowing for efficient manufacture of furniture. Thus, the mold assemblies of Johnston are not manually movable and cannot be modified as such.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
